

### Remarks

Claims 10, 13, 14, 27, and 28 were amended to correct typographical errors. The claims have not been narrowed in scope. The claim amendments add no new matter to the application.

A paper and a computer readable form of a substitute sequence listing accompany this amendment. I believe the contents of the two forms are identical. The contents of the substitute sequence listing are identical to the sequence listing filed previously, except that the substitute sequence listing correctly identifies and discloses SEQ ID NO:5 as a DNA sequence. The DNA sequence of SEQ ID NO:5 is disclosed in FIG. 1. The substitute sequence listing adds no new matter to the application.

Respectfully submitted,
